Based on the post-tsunami reports on availability of sand received from the territorial Divisions of this Department, collection of following quantities of sand within the safe ecological limits has been allowed from the sites identified by the DFOs concerned:

2. The Divisional Forest Officer concerned shall also ensure that no collection of sand is carried out by the allottees/organisations from sites other than the sites identified and demarcated on ground by the division.
3. Collection of sand from the identified sites shall be carried out on the basis of the mining plan with adequate environmental safeguards to prevent any damage to the sensitive coastal eco-system including corals, turtles, crocodile, bird nesting sites and Protected Areas.
